Student Registration Guide

Once you receive your registration code for your Chalk & Wire account you will need to register the code to create your account. Follow the steps below to register your account.

Register your Chalk & Wire Code

1. Log into your BlackBoard account and click on the Portfolio link provided in the menu on the left side of your screen.

2. Click on the Chalk&Wire Portfolio link.
You will now be directed to a New User Registration screen. Your first name, last name and email address will already be populated for you and locked.

3. To complete the registration process, enter your subscription code and a password. **NOTE:** This password is only for use after graduation. You will not need it at this time as you will always be entering into your Chalk & Wire account via BlackBoard.

4. Click **Register**.

5. Review the User Legal Agreement and select "I agree".

6. Click **Continue**.
Refer to the Student User Guide

Now that you have registered your code and created your account in Chalk & Wire, you should return to your BlackBoard account and follow the directions in the Student User Guide. It will walk you through how to access your account from within BlackBoard, upload work and submit it for assessment.
